## Hybrid Teaching Rooms

Created by Yong Chee Ann, last modified by Muhammad Irfan on 17 Apr 2023

The hybrid teaching rooms retrofitting project is designed to facilitate classroom lecture and communication among student in-class and online. Technologies incorporated in these rooms are seamlessly integrated to allow both students and faculty to engage in active interactive during class. 94 rooms are identified to support hybrid teaching.

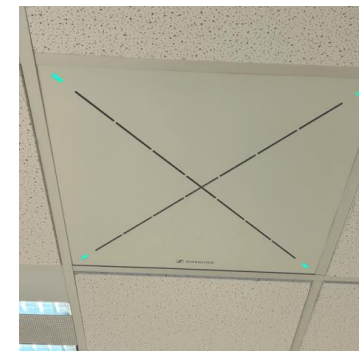

What are the advantage	Equipment setup	Close up of the equipment
<ul style="list-style-type: none"> <li>Achieve highly interactive together with the far end and physically students in the seminar room.</li> <li>No echo nor feedback occur during the testing. All the laptops are muted in the physical seminar room.</li> <li>Lecturers can speaks freely wherever he/she walks within the seminar room.</li> <li>Far-end can hear the participants when talking in the seminar rooms via the hanging array microphone. No need of a handheld mic to be pass around among students.</li> <li>Audio is clear and audible to the far-end.</li> </ul>
