Migration of IVLE content to LumiNUS

This is an opportune time to review your module and do some housekeeping and how it is organized.

Instructions

- Only the owner of the IVLE module can request for migration.
- Each IVLE module can be migrated once. Subsequent re-migration requests will not be entertained.
- The module to be migrated will be created as a new module in LumiNUS.
  - It will not be migrated to an existing module in LumiNUS.
- You may choose to migrate only certain tools and content within certain modules. Please refer to the table below.
  - Please indicate the module and the tools in the module you wish to migrate using the online migration application form. The migration request form is available until end-Feb 2020.
  - Modules more than one academic year old will not be migrated.
  - The newly migrated module needs to indicate the target academic career and term, following EduRec definitions.
    - Please use the actual academic career and term for which you intend to use the module in LumiNUS.
    - This is because the academic career and term cannot be changed once it is set in LumiNUS.
    - Do not indicate an earlier term as a placeholder.
  - Please indicate the correct module code in LumiNUS in the migration request form.
    - If it’s supposed to be cross-listed module in LumiNUS, please indicate. Example, if you need to migrate IVLE module “GEH1234” to LumiNUS module “GEH1234/GEK1234.” This is because the module code cannot be changed once it is set in LumiNUS.
- Migration is on a first-come, first-served basis.
- Corporate modules cannot be migrated for now.
- Once your requested IVLE module is migrated to LumiNUS, you will receive a confirmation email to inform you of the status. Please check that the content has been migrated successfully.
