

Home

The [Integrated Virtual Learning Environment](#) is a learning management system designed to facilitate and supplement teaching at the [National University of Singapore](#).

IVLE is designed to:

- Ease the administrative work of students,
- Provide more opportunities and avenues for staff and students to collaborate and communicate,
- Promote exploratory and independent learning and
- Provide a one-stop access to all learning resources at the University.

To achieve its objectives, IVLE has a rich set of **online tools** and **resources** such as *yearbook, class & groups, forums, announcements, assessments, files (workbin), multimedia, lesson plans, project evaluations and weblinks all designed to facilitate collaboration, communication and promote independent learning.*

It is at the same time integrated into the **University's administrative and library systems** to facilitate class administration and knowledge management.

Get Help

Please send all queries, issue reports and suggestions to [IVLE Help for Staff](#).

Log in using your NUSNET ID and password.

We will get back to you as soon as possible.

Printing and PDF

The IVLE guide is now fully online. To have a hardcopy, you may:

- Print the relevant page(s) by going to File > Print on your browser; or
- Export a page, selected pages or the entire guide as a PDF for offline reference. Learn how to [export to PDF](#) (please open in a new tab /window as this link goes to another wiki).

Please think of the environment before you print. 🌱
