

Create/insert a link on a wiki page

You can create links to:

- pages within Wiki.nus ([#internal](#))
- documents ([#attachments](#))
- other web sites ([#web](#))

Type [in the text editor. The link auto-suggest will pop up.

If none of the suggested wiki pages are listed, or you want to link to other content, click the **Link** icon on the text editor toolbar.

Internal links

Search

Search is the best way to link to another Wiki.nus wiki.

- Click the **Search** tab. You can search all wiki spaces or your wiki space.
- Enter your search term in the text box.
- Click **Search**.
- Click the link of the page you want to link to.
- Enter the link text if necessary.
- Click **Insert**.

Link Text:

Hint: type "[i]" in the Editor to see a list of suggested pages and insert a link.

Attachment links

Attachments allows you to upload a file and create a download link for your readers. You can attach files up to 20MB per attachment.

- Click the **Attachments** tab.
- Click **Browse**. Use the file explorer to find the file which you want to attach, then click **Open**.
- Click **Attach**. The file you want to attach now appears on the list.
- Click the file's link.
- Fill in the link text. e.g. If you type "Download the lecture slides", this text will become the link: [Download the lecture slides](#).
- Click **Insert**.
