

IVLE Discussion Forum

What is IVLE Discussion Forum?

IVLE Discussion Forums allow for threaded discussions where all users need not be in the forum at the same time. Discussion forum posts also can be more lengthy and in-depth compared to chat as students have time to formulate their responses. You can start off discussion topics for students to work on, or you can let students raise questions for you or their peers to respond to.

Technical requirements

1. Computer with:
 - a. Internet access
 - b. Web browser for IVLE

Workflow

1. Create discussion forum in IVLE
2. Seed discussion forum with questions
3. Participate in discussions
