

Migration of IVLE content to LumiNUS

This is an opportune time to review your module and do some housekeeping and how it is organized.

Instructions

- Only the owner (not co-owner) of the IVLE module can request for migration.
- Each IVLE module can be migrated once. Subsequent re-migration requests will not be entertained.
- The **module to be migrated will be created as a new module in LumiNUS.**
 - It **will not be migrated to an existing module in LumiNUS.**
- You may choose to migrate only certain tools and content within certain modules. Please refer to the table below.
 - Please indicate the module and the tools in the module you wish to migrate using the [online migration application form](#). The migration request form is available until end-Feb 2020.
 - **IVLE modules more than one academic year old will not be migrated.** These old modules will not be listed on the migration form.
 - The newly migrated module needs to indicate the target academic career and term, following EduRec definitions.
 - Please use the actual academic career and term for which you intend to use the module in LumiNUS.
 - This is because the academic career and term cannot be changed once it is set in LumiNUS.
 - Do not indicate an earlier term as a placeholder.
 - Please indicate the correct module code in LumiNUS in the migration request form.
 - If it's supposed to be cross-listed module in LumiNUS, please indicate. Example, if you need to migrate IVLE module "GEH1234" to LumiNUS module "GEH1234/GEK1234".
 - This is because the module code cannot be changed once it is set in LumiNUS.
- Migration is on a first-come, first-served basis.
- Corporate modules cannot be migrated for now.
- Once your requested IVLE module is migrated to LumiNUS, you will receive a confirmation email to inform you of the status. Please check that the content has been migrated successfully.

Items not migrated for all tools

1. Access rights for all tools will not be migrated. Please reconfigure the permissions after migration.
2. All student responses and submissions will not be migrated.
3. All logs and statistics will not be migrated.
