

How to clear the browser's cache?

Instructions differ based on operating system and web browser. This third party site has instructions for common combinations of operating systems and web browsers:

<https://clear-my-cache.com/>

However, if you do not like the idea of clearing browser data as you do not like to clear your history, since you have many references and you need to go back to auto-fills many other items, then, you may consider clearing Chrome cache for a single website only:

<https://pitdesigns.com/en/how-to-clear-chrome-cache-for-specific-website-only-3-steps/>

Link above provided on this page as information only.
