

# File Submission Folder Overview

The **Files** tool allow you to disseminate files that you need for your module. It also has a feature to create a file submission folder in which students can submit / upload their assignments. When creating a file submission folder, you can also specify if the submission folder is to be integrated with [Turnitin](#), which can check similarity between submissions.

- [Create a submission folder](#)
- [How submission deadline setting works for submission folder?](#)
- [Edit, move, delete, or download a submission folder](#)
- [Mark assignments in a submission folder](#)
- [Edit or delete marks in a submission folder](#)
- [Publish marks and comments directly inside submission folder](#)
- [Send a reminder for a submission folder](#)
- [View the activity report in a submission folder](#)
- [Create a Turnitin submission folder in LumiNUS Files](#)
- [Configure Turnitin assignment settings in LumiNUS](#)
- [View similarity reports and mark submissions in a Turnitin submission folder](#)
- [Submit files to Turnitin via LumiNUS Files on behalf of students](#)
- [Turnitin session has expired error](#)
- [View submission progress in a normal submission folder](#)
