

How to create a MediaWeb (Panopto) channel?

1. In LumiNUS, click your module on *My Modules > Teaching Modules*.
2. Scroll down on the left-hand sidebar. Click **Multimedia**.
3. Click the blue **+ Create A Channel** button on the right-hand sidebar.
4. Fill in the form. Set *Use MediaWeb* to **Yes**.
5. Click the **Permissions** tab. Set the following:
 - **Who can view this channel?** If you want to grant access to everyone, check **Everyone in this Module**.
 - **Channel Opening and Closing Date**.
 - **Publish Channel**.
6. Click **Save**.

You have created a MediaWeb channel. Learn how to [record or upload content to the MediaWeb channel](#).

 Click the screen recording below to view at full size.

The screenshot displays the LumiNUS interface for the 'LEGAL ARGUMENT & NARRATIVE' module. The top navigation bar includes the LumiNUS logo, the current semester 'AY2019/2020, S', the user name 'Ying Qin', and notification and help icons. The left sidebar lists various module management options under 'GENERAL' and 'TOOLS'. The main content area shows the module title, a video player for 'Sampling Methods', and a 'Module Overview' section. The right sidebar contains options for adding topics, switching views, and creating announcements. A red box with the number '1' is positioned in the bottom right corner of the screenshot.
