

# OneNote Class Notebook

## What is OneNote Class Notebook

Every class team comes with its own linked OneNote Class Notebook. The OneNote Class Notebook app comes with these components:

- **Student Notebooks** - a private space shared between the teacher and each individual student. Teachers can access every student notebook, while students can only see their own.
- **Content Library** - a read-only space where teachers can share handouts with students.
- **Collaboration Space** - a space where everyone in your class can share, organize, and collaborate.

## Free interactive online training
